

Chapter One

Day and night gaming for her nut-job, this Asia's World City was hosting her alley cat way, but there was more there. Crawling out of the woodwork of her collective mind-fuck, they were trapped inside her. Fucked up and out somewhere yet they were all there with her and him. They were all her little animals.

Agarwood, oil, and resin - fragrances, was Ronald this part, an internal or external herb medicine? Lilly had added him to her Vodka. Role playing her seductress craft, Lilly had wanted her stud inside her insanity, so when Ronald had come to Lilly in this multiplayer online game, it had four heads and eight tails. "Weird science." Ronald was with Lilly now, for she was his crazy diamonds that was without its sutra.

Lilly's role play was all going to make sense to her, for she was this seductress that was going to fuck the brains out of a serial killer. "Are you crazy for my bed-strings?" Lilly had pounced her role-playing dialogue. Grabbed, Ronald was feeling her up with Lilly's shake and her shiver that was at before she would eat his heart and savor his liver.
