9/25/2017

Dear Jeff Sessions:

July of 1989, I was put on Social Security by a psychologist after getting fired from numerous jobs, as I was reacting to external, peripheral and unprovoked attacks by twelve step ideology and its infrastructure.

2001, on "Good Friday" in Glendale California, I was served eviction papers for "I don't need a reason." I was living at the Glendale YMCA. I had chronic life threatening Hep C 1a and 1b. After two relapses on Peginterferon and Ribaviron, I found a cure in a Gilead Clinical. Homeless since 2001, I have had many mind-boggling challenges. I have experienced by no exaggeration a 1000 Police contacts, as the pipeline of term is inundated with stimuli, unprovoked to agitate and trigger reaction; whereby, complaints are made, security or Police are called, and I am excluded from resources too numerous to list here.

With the relentless accosts, gestures - quips, stimuli and patterns to indoctrinate a reaction, I have never succumbed to this alcohol and or drug abuse motive. Challenged by every conceivable angle, I am focused, struggling in this lag time as an intense student of personal achievement.

With Buddhism - computer coding and with intellectual property to converge, on September 7, 2017, I went to Hertz in Anaheim California to pick up a Toyota Camry to utilize, as I was accepted as an Uber Partner. I immediately felt uneasy. I was concerned as to an African American representation, a perspective for responsibilities ahead, and I felt that they lacked integrity.

Subsequent events proved conclusive, as I was given a KIA Ultima. The peripheral challenges commenced the next day, particularly in the morning and throughout. I mention African American before as a fact, yet the all conclusiveness of this index is the 12 Step ideology. In the first three days, I earned \$355.00 and the next week I earned \$1038. I received top rates and top earnings on the one side, and on the other, I received the lowest rates you can give. With those hostility, there came unprovoked damage done to the car. This resulted in me having to relinquish my service, as a rider had reported a minor accident orchestrated by the infrastructure and post unprovoked, unoccupied damage done to the car.

"Did I bump into you," these types of peripheral quips. I want to mention that I applied for a Plan For Achieving Self Support in about 2005 to be Real Estate Agent, as I held three DRE in the past. The Social Security Administration approved and paid for my school and materials. I quickly passed the State of California test, yet when it came time to issue the License, Los Angeles wanted to "talk to me." Just before that, I had pleaded "nolo contendere" for disturbing the peace in the Glendale Central Library. I was trying to access the internet, and challenges spoke of, I threw this little, 3X3 internet appointment slip at the Librarian and walked out, later to get charged and threatened with assault charges by the DEA in Glendale Cali at the time, so I cut the fight and went on.

Like I said, I had held three DRE, as I would have had never of had pleaded if I had thought it would cause me a problem: this "talk to me" has been a relentless crime since. That particular rider, criminals - all data is relative to the grievous harms of Civil and Human Rights Violations inflicted upon me for decades,

as even the riders that were considered profile of leaders by observation stature and character of carriage tipped me too. There is no gray area here. The data can clearly be mined, metrics validated, verified and achieved from Uber and all low rates and hostilities in this pipeline can be traced back to this "Good One," which of course was a pathological dialogue during this Uber interim.

I return the car to Hertz Thursday Sept 28, 2017 with damage of which is on my personal watch. I am no longer driving for Uber and am concerned that such approach is too risky an endeavor. I am not a victim, not going to happen. I am a victor! Please, join me.

Sincerely,

Edward Charles McCready
