

# "I Love You"

Lyrics by

ECMcCready

one more time  
listen real hard  
line by line  
don't be on your guard  
flowing with motion  
light of a star  
a magic potion  
they'll go real far

I love you  
words to do  
again and again  
I love you  
it'll never end

Reaching down deep inside  
no reason or why  
it's a beautiful ride  
can even make you cry

not for another  
I'm right there  
not a lost brother  
bit more than care

I love you  
words to do  
again and again  
I love you  
it'll never end

what of an always  
takes two of us  
every day  
in math its plus  
of what I say  
you and me  
sorting it out together  
it makes two three

I love you  
words to do  
again and again  
I love you  
it'll never end

Repeat
