How can I do better?

May 14, 2019 Uber/Getaround's 9/11 Torpedo

This Report is from Edward McCready who was gigging as an Uber Driver using a Getaround peer-to-peer car rental.

ROOT CAUSE ANALYSES

NAME AND IDENTITY'S MISDIAGNOSIS SOLUTION SPACE

Abstract

With deep-learning based Artificial Intelligence with Local to Global Scope, a misdiagnosis solution space is a new x for an optimized y's occupation of perception-based technology's zed:

GamifiedApp.com

How can I do better?

On May 24, 1959, I am an only son of a statutory rape's parameter with a May 14, 2019 Uber/Getaround accident in Los Angeles County. Data pipeline is a decades old crime. Never prosecuted, simultaneously mapped and synchronized, an Uber's killing of a pedestrian is an isolation, classification and definition of the metrics on my Uber Driver App, so navigational sequences verify Riders in context that caused an autonomous murder.

Introduction

Navigation on my Uber Driver App was compromised, and all Riders and navigation was an internal to external criminal conspiracy:

May 14, 2019, as an Uber Driver, I stopped at Beverly Blvd on Dillion West of Los Angles, just North of Wilshire District. I looked both ways. Rider in car was of olfactory and of the grievous circumstances to delay and impede to trigger a catastrophic event, as I proceeded to cross Beverly Blvd on Dillon with haste, a requirement and a necessity at such location and time, before I was to get across Beverly Blvd, I was struck by a vehicle traveling from the East-bound direction on Beverly Blvd. The vehicle struck the passenger's side, at the front wheel and just before I was able to enter Dillion and get across Beverly Blvd.

GREYS ANATOMY "Into You Like A Train"

My TV spec comparison was called GREYS ANATOMY "Out To Get Us."

Spec =>

<https://gamifiablecom.files.wordpress.com/2017/11/outtogetus.pdf>

I have been attacked by a relentless accost; people are physically running into me - occupy my peripheral with agitation to trigger and or an event that has caused exclusions with PD in loop. If I eat, use a resource or even shop, the touching, physically bumping into me, gestures, quips and just plain deliberate occupation to cause an emotional upheaval a state is ongoing.

Natural Selection

Of all the Riders in my Uber Driver App, a fraction were a profoundly a different UX for me as a Driver and the rapport went through the roof! I had complained to Uber - non avail and they are liable to me civilly! The Getaround peer-to-peer car rental was also internal, hostile and there never was a smooth on boarding with them, a complete struggle and hassle each time.

There were Riders in my Uber Driver app that were trying cause fatigue, conflagrate my cross-dominancy and there were regular intervals at where pedestrians, many with bicycles, they had tried to cause an accident. I have never been in an accident, come from a hereditary background at here I am a relative of Hall of Fame Jockeys. I can drive anything with wheels, tracks - props, jets, two or four legs - it was a major challenge every single time, let alone the constant navigational disruption, internal hostilities about that and that danger to me, them and others - with this Uber perpetrator that had no care for the safety of themselves and or others.

Trauma

At one time, I had my left bicep severed from these accost, impediment - this running into me is in the same context of what happened on May 14, 2019. The day before this accident on May 14, 2019, there was an African American in my Uber, reeking of alcohol - vociferous as to where I was taking him, explaining about a violent acting scene that he was going to have with a woman. Another driver in a white Mercedes, the same day, "He was

really aggressive," was this other Rider's response, as I took him to his destination in Beverly Hills that evening, the driver of that Mercedes literally attempted to ram my Uber/Getaround vehicle. The vehicle in question May 14, 2019 hit the passenger side with brunt force. The airbags deployed on passenger side, not mine - injuring me at about my heart from the force of the seat belt. The Rider exited without a word and vanished on me during this orchestrated catastrophic event.

Rover.com

My first customer was Marvin Acuna, October of 2018, a resident of the Trio Apartments in Pasadena California/proprietor of the Pizza Plant nearby. Thanksgiving Weekend 2018, a man named Chris David, an academy member is connected to this criminal pathology to impede my path, olfactory and that stalk of my peripheral, and it was after that Holiday weekend, house and dog-sitting for Chis David of Pasadena Cali, gigging with the Rover.com App, I used the peer-to-peer car rental Getaround for my Uber vehicle. There was residual contraband tossed in that car, and on May 14, 2019 - the night of the accident, Marvin Acuna accosted me. I avoided him, post this rhetoric "let insurance take care of it" scam. My gigging with Rover.com was compromised from this person and all infrastructure with **Getaround.com** were in a criminal context.

Killing of Thoroughbreds

Olfactory is a loop into Santa Anita Park Race Track in Arcadia Cali. Deduction of the San Luis Rey Downs Training Center fire from a meth-lap explosion, the utilization to cause condition with scopolamine and meth for cognitive competitive composition of an equine athlete, relative to Tony Robbins - this constant pattern disrupt of persons jerking their arms, a libido assault to cause emotional upheaval, a defensiveness aligns with the multiple horse deaths that are in concert with a criminal misdiagnosis of Item A's problem space.

Problem Space

Item A =>

- https://gamifiablecom.files.wordpress.com/2018/11/38430013_140879243489504_8325463120231268352_n.jpg

Never charged nor divulging of that rape, my father, Author James McCready illegally started Thoroughbred Racehorses for over forty years for the then Longacres Race Track in Renton Washington. I am an only son, and my mother, Janyce Elaine Langlot of Veradale Washington states "she never did anything about it." Endangerment of a child is a not an option!

Item B =>

- <https://gamifiablecom.files.wordpress.com/2017/11/doj.pdf>

Stifled Innovation

My father who started thoroughbreds illegally for decades is part of a culture of lies that revolves around criminal circumstances, stipulating the "LUCK" television production, as brazen insurance fraud is in an infrastructure of 12 step criminal networks harbored in horse racing, they are creating misinformation for profit and power.

Criminal Navigational Positioning

Aprx 7:30 AM, after repeated, unprovoked criminal challenges, as an Uber Partner Driver, from first utilization of Getaround services in November 2018 at when residual contraband was left conveniently in that peer to peer rental, the first ping on May 14, 2019, that Rider that got in my Uber/Getaround car on the day of that accident is on the wrong side of the street at when I picked him up - variations of this rampant too.

Navigational challenges through-out my Uber/Partner term, one of them is this pattern to deliberately position the Rider on the wrong side of the street of the location indicator of the Uber Driver app. Metrics plummet of my ratings, an indoctrination of Riders in the fields of Real Estate were aggressive, just prior to May 14th 2019, and at where my Uber rating had climbed the highest after many challenges, a clear demarcation is defined. I am a top driver, but rating are only to plummet again from this physical and psychological attack!

On May 14, this first Rider entered the Uber/Getaround with an olfactory. Part of the grievous backstory, I was alerted from an already contentious beginning with Getaround. Also, I am right handed but left-eyed, and I noticed that challenge again, as my

mother had switched my hands as a child, something I struggle with but by no means impedes my driving, unless, of course, there is a deliberate attempt to do so - even then I am able to reestablish my focus yet aware of a peripheral predator. My mother, step-brother and sister of Veradale Washington are criminally connected to 12 step infrastructure, usually crawling amongst undocumented maids, low level employees with the slack taken up by infrastructure.

Leaving Scene of An Accident

Concerned for the safety of all, I did not believe that this Rider should have had left that accident scene without first checking in me, as after that accident, he left quickly, and I am, actually, querying a bystander as to their well-being, and this Rider? Those metrics are on my Uber Driver app, and that is my position to claim civil remedy. Metrics will not lie! They will!

Human, Civil Rights Violations

Although homeless as explained in Item B in a letter to Jeff Sessions, I was able to achieve a Plan For Achieving Self Support to fund my ability to get another Real Estate License, yet prior to this, I am confronted with stimuli to agitate and impede at where I threw my Internet appointment slip at a Librarian staff member in the Glendale Central Library, and subsequent events, I was later arrested for "Disturbing The Peace." There has been and still is these pathological patterns to incriminate and discredit me to justify, excuse these crimes? "Excuse me" is always a window of predatory engagement and delivered at time and with libido psychological attack, all with intonation, location, beat and rhythms!

Credibility And Property

My father and mother's blatant disregard me, a child then and into adulthood - credibility is not there, so I can only deduce property. There is a single family home in Tukwila Washington, and my father died in 2007 - with my step-mother, Sylvia M McCready a long-time resident of that property, now 84, that may very well legally belong to me, let alone I question as to my father's ability to disinherit me, as a rapist of a minor - never charged nor prosecuted for that crime, to engage criminally in horse racing for decades, be part of a large horse

racing family in the Pacific Northwest, lying to achieve his State License, it is clear the credibility is not there, property must be a primary motive.

Incidents for Dialogue

Rather than go to trial as sheepishly offered by the Public Defender at the time, I chose to plead "no contendre." I have held three DRE licenses prior to that. I knew that it would not impact my ability to get a DRE License. Passing the DRE then, maybe the first or second out the door, the Los Angeles chapter of the DRE contacted me after I received my pass notice for the State, and they wanted to "talk to me." This has been a grievous and contentious loop for the last 18 plus years at where someone or the other, usually with PD sent in the loop so I could do the "talk to me."

Adam Schiff

Grievous and a multitudinous pipeline of problems that I have to go through is a constant felonious harassment that dates to the rape of my mother, her negligence to provide for the safety of a child and her willingness to endanger and the patterns throughout that lead to this very accident on May 14, 2019, I am constantly accosted, barraged with peripheral patterns and pathology, either with objects that I may desire and or hostile libido representation of a personal fact or trajectory of mine, regularly to poison by blog-posts and or intellectual property to put me in a defensive, hateful state at where I may react with revenge and resentment. Temperatures of buses, libraries and with utilization of the Pasadena Police Helicopter, navigationally and an offensive, recently timed and targeted at where employee will shake a doormat prior to infiltrate the air, with peripheral occupation of illnesses, there is a relentless attempt to get me sick, yet I have overcome chronic, lifethreatening disease homeless, did a major surgery where the place of rehabilitation at the Royal Palm in Glendale Cali froze my knee to indoctrinate opiates, and to cause blood clots to reach my heart! I was appalled to see a letter from US Representative Adam Schiff praising them on their wall - another AA member? Let alone my countless attempts to communicate to Senator Diane Feinstein and 100s of phone calls to the LA FBI and emails to the DOJ?

Coffee

Patronizing MacDonalds in Koreatown Los Angeles on May 13, 2019, at the accident location, this was presented to the driver that hit me - tea! I had order coffee that day, given tea then and there were multiple incidents at this particular Macdonalds, I am regularly accosted with persons targeting me to observe them with coffee. Copious was that driver to demonstrate and brandish it before me and of the pipeline at proximity, of this relentless psychological attack, stimuli, gestures, quips and unwanted physical touching and olfactory to "blow something of another up." A proprietor had given her a tea at the accident location on May 14, 2019. That driver had hit me!

Pipeline

From a loop of Regus Business Center, kleverdog coworking in LA Chinatown, I have been engaged by criminal pathology, plagued with incidents that get me excluded from resources. After kleverdog coworking in LA Chinatown, I returned to Arcadia California, and subsequent events, the accosts and peripheral occupation of stimuli aggressively commenced - touching, a precarious three taps on my back or arm, gestures, olfactory and rhetoric of this "book" this or the other, again a context at where I did not see that driver!

At Arcadia Cali's Golds Gym, 24 Hour Fitness and the Westfield Mall and their Public Library, I noticed that trainers, some gym patrons were in the context of the scopolamine and meth conditioning. I have been excluded and denied access from each

of those resources - all unprovoked and grievous attacks and in direct proportion to Item B. After the letter to then the acting Attorney General Jeff Sessions, Arcadia PD at one time had me cuffed, legs crossed before me and sitting on a sidewalk, Arcadia PD literally punched me in the face. All about this leave this or that place: "Just leave," quoting the Central Library Director in Arcadia Cali in September of 2018 at when I saw two PD, the ones who threatened me and had touched in context of the priori of that library, these types of things are said.

Gratitude And Tony Robbins

I as literally kicked in the back at Golds Gym in Arcadia Cali, again leaving that day, if I ever did that or another, straight to jail. They let it slide and excluded me! Security at the Westfield Mall in Arcadia Cali then, the ones I observed dealing drugs in the parking lot had thanked me for not attacking back - relentless circumstance I hear often on Metro, regularly attacked by their breaking, door slams, bus riders calling out upon leaving "thank you," or elsewhere "I appreciate" yada yada yada

Fridays

Friday, and in September of 2018, again accosted leaving the Arcadia Cali Public Library, I responded to this accost "that you can't hate on me," regular is the peripheral occupation with libido stimuli of pedophilia; immediately engaged by a library staff member, a pregnant woman at that time, noticing the trafficking of Thai children there, questioning the intention of these pregnancies now, this is the staff that was supportive of the people who did the unwanted touching, as I had sternly reprimanded them multiple times, she had another staff member call the police on me this Friday at when I was leaving the Arcadia Cali Central Library.

Stabbed In Bowel

When the two Arcadia PD arrived that day in September of 2018, that "just leave" day, I recognized one, or maybe both as the persons that were present, a day in the Rampart District of Los Angeles, one of them that had stabbed me. I took a puncture wound to the bowel and almost bled to death at the Los Angeles Good Samaritan Hospital that night and on the operating table!

"You don't mess with those people" was that attacker's response that night. My decades of TM, that flatline saved my life, otherwise that "waiting" .. After that Arcadia PD had punched me that other day, prior to this incident just explained, mentioning now that both officers wielded their batons in their escort from the Arcadia Central Library that Friday explained now, I barely escaped a beating!

"I Don't Need A Reason"

This was what was said about the eviction that had made me homeless, that noticed delivered on Good Friday 2001 at the Glendale YMCA and of the content of Item B, I get this relative "have a good one" rhetoric that is in context all the time. The day that I was punched by Arcadia PD, incident upon leaving the Arcadia Central Library, the Friday spoken of, persons were touching my book-bag and me. Yelling at that person, the officer responding in loop, the one that punched me, hand-cuffed me and all, he asked me "do you know what this is about?," for which, I responded "yeah, property transfer," and he says "is that what you think this is about?"

Leaving Chinatown LA

When I first arrived in this loop spoken of, being excluded from LA kleverdog coworking Chinatown LA, another unprovoked attack and of the multiple contacts of course, complaints lodged by criminal AA members for no other reason than to attack, abuses that engages in rhetoric, Arcadia PD had pulled a gun on me! Not the first time, another time! Yes, there was a maid who called Pasadena PD on a Friday again! Pasadena PD had pulled a gun on me there. I stay and sleep at night alongside a garbage bin in a parking lot of the now Integro Insurance Brokers in Pasadena Cali. It is that night, seeing that maid who explained to the Pasadena PD that she was afraid? I have a tag-line in a feature screenplay, "She sees scary things." She resembles the woman that had rammed my Getaraound/Uber vehicle on May 14, 2019 - a maid at the time for what is now the Integro Insurance in Pasadena Cali.

Santa Anita Park Race Track

The last thoroughbred I trained was a seven-year-old mare called "To Be Positive." Compromised at the starting gate, stipulating that my father, this rapist was still illegally starting thoroughbreds for decades and part of this culture of lies, there are countless times I am confronted with halitosis, mentioning that I was excluded from Santa Anita Park Race Track for having the alcohol on my breath. Olfactory of menstruation, and one woman who happened on my Uber Rider metrics, I had to facilitate this woman's emergency circumstance lest she bleed all over my car! I had contracted Hep C 1a and 1b from unprotected sex from a woman called Susan Richardson in 1991, an orchestrated event in Arcadia Cali, and this as with all is the grievous patterns, all interconnected and the data on my Uber Diver/Getaround metrics and even the Rover.com, this is my claim to civil and advocate criminal prosecution - Grand Jury Investigation!

AA And Service Pathology

I was happy to help though spoiled by her conspiracy that is in direct proportion to me having had unprotected sex with a woman called Susan Richardson at the Huntington Downs 1991, her Townhome then in Arcadia Cali. I contracted Hep C genotype 1a and 1b! I go out of my way to take her to a Hotel near the LAX, retrospect of an indoctrinated drug delivery pattern by this Rider with me the molested Uber Driver to do so? Not going to happen! There is no situation that these dots have not been connected!

Senator Jack Scott

When I left Horse Racing in 1986 in Inglewood Cali, I drove to Pasadena and decided that I wanted to go to college. I had written him, then at Pasadena City College, even suspect I met him at an AA meeting, viciously attacked after attending an AA meeting at Caltech, my college hopes were derailed. Jack Scott at one time did accost and pass diametric and the day his adopted son had committed suicide, I was visited, unprovoked at the President's Square in Arcadia Cali, "it can happen," this is what was said to me?

Wrong Major

With less than a 9th grade education, I excelled to honor grades. However, the introduction of libido stimuli, homosexuality and pathology, accosted then, and I was devastated from the derailment of my education! Let alone, being an English major instead of mathematics, science and or computer tech major, there is evidence of hereditary family members that are using my cross dominance caused by them to destroy the quality of my life, as a parameter of the metrics on my Uber Diver/Getaround and in direct proportion to that May 14, 2019 accident, I buy a guitar and write lyrics to a song called "Begging for a C" after my college disposition, inspired by a statement of then Dr. Hammond, a Geology 1A teacher, somewhat exasperated, she warned me to get Cs and leave Pasadena City College as fast as I could versus get honor grades and go to UCLA? Again, an index as to a why that I had not seen this driver that hit my vehicle.

Book Bag And Maid

Item => C

<https://gamifiablecom.files.wordpress.com/2019/09/file.jpeg>

Sleeping by this garbage bin has made me a target of maids and incidents way too numerous to detail now. It is safe to say, with 24/7 context, at anywhere that I may have had an opportunity of resources or resourcefulness, you will find this compromise that dates to Item A and is the cause of Item B.

Not Seeing Driver

Treated twice for 48 weeks with Peginterferon and Ribavirin and homeless on this brutal treatment regime, I was given standard dosage, a weak implication where a stronger dosage was necessary to cure me, physically punched at this Glendale Memorial Hospital by this accost spoken of, and another time, I was put in an MRI with that severed bicep - post a brutal physical attack at where the assailant threw me to the ground, a professional take-down, patted me for weapons simultaneously and repeatedly yanked on my **book-bag** to fracture my **LEFT** arm! I am right-handed though left-eyed, this was switched on me in childhood..

Post this attack, patterns and persons from the unprovoked eviction from the Glendale Cali YMCA, they brandished their presence and with demonstration of culpable relation, explicit an African American, an employee there in 2001 at interim and in direct proportion to Item B and the unlawful eviction, I was a person in the "Protective Class" with chronic Hepatitis C then and at the time with genotype 1a and 1b, a life-threatening condition. Again, when asked as to the "why" of the eviction, their response was "I don't need a reason." Rather the legal definition of a Hotel and or its jurisdiction is not the question and this backstory, the qualitative assault to demean, destroy and cause self-sabotage and direct catastrophic event is.

The ever-ending struggle and hassle with health care, getting blood clots in the first Hep C treatment, getting Ultrasound, the doctor then never told me of the blood clots! Instead, he had me go to his office in Beverly Hills on a regular basis so he could attach me to an acupuncture apparatus, so after another Ultrasound at Glendale memorial, the clots were divulged to me and I was given blood thinners, a sole motive at that point was that it would escalate the Hep C virus. Staying on the Blood thinners during the second treatment, it proved a God send, as 1b imploded and left me with only 1a, but no doctor told me after that second relapse, post its brutal pharmaceutical regime!

Relapsing that second time, distraught and all this still homeless and to this day, I thought another biopsy would divulge a stasis because I had responded to that medication. However, my primary Dr at the time, Dr. Marco Gomez-Garcia MD and the other doctors that I was seeing at Glendale Memorial told me not to - even one saying that it might kill me! However, finding another doctor at Glendale Memorial, I was sent to Glendale Adventist, and the biopsy there revealed that I had stage 1-2 grade 3, so the Hep C had advanced from .959 on treatments!

Leading Hep C Cure

I went to Cedars-Sinai, happily where all my health care is now, Dr. Poordad, then the head of their oncology department sent me into a Gilead Clinical, and Gilead Sciences paid for my meds and labs, paid me and I achieved SVR in six months and without the brutal side-affects! It was only when that I was at the Gilead

Clinical that I was told that I only had genotype 1a, for if I had 1b, I would of not been eligible. I was cured of Hep C in 2012, homeless - the successful one of that 1,500.

Olfactory

Arriving at Santa Anita Race Track at 16 in 1975, later plied with alcohol as a minor, I had quit drinking in all forms and entered AA for a year in New York City in 1985. This is a relative dark cloud that shows up; particular at when I am doing well, I am attacked in this pipeline and everything falls apart. Returning to Santa Anita in 1986, I went to work for a trainer called Jim Dotson, and I was way past consuming alcohol. However, one morning - like countless jobs of the past, he picked a fight with me and I left that day, and upon returning to Santa Anita, I was floored trying to enter the backstretch of that racetrack. I was told I could not enter because I had alcohol on my breath, an accusation, an outright categorical lie of Jim Dotson!

12 Step Members

Peripheral stimuli is relentless with its direct accost, gestures, olfactory - pounding on furniture, the touching and quips, the Metro Drivers and their breaks, all is way too numerous to explain, but all is interconnected with Law Enforcement in the loop, reminding of the 1000 contacts with PD stated in Item = B, and here, again - in the cross-walk countdown, a lie in wait, last one I paid, before that one, I wrote the Judge and he let me go, but, again a "talk to me."

Item => D

<https://gamifiablecom.files.wordpress.com/2019/09/file1.jpeg>

I am illegally cited and attacked in the context of May 14, 2019.

Conclusion

Root cause analyses with my name and identity is a narrative for a misdiagnosis solution space, for a trajectory to Deep Machine Learn and apply an Artificial Intelligence wrap will register on the blockchain with an addendum at interims.

Despite my profound challenges, I will not be defeated in tech, as a self-taught software engineer and a founder, this backstory will be Global from the local scope of a homeless man. Again, I can only say, if you go to where I may have had a resource or resourcefulness, use Boolean logic under a Federal Crime to lie, you will find a solution.

Addendum

In the fall of 1994, reacting from peripheral stimuli, I was excluded from the Pasadena Central Library, and upon my retreat from that Library, two Pasadena Police had arrived, interviewed me and took me to Edgemont Hospital in Hollywood Cali on a psychiatric 5150. One of them threatened to hunt me down and kill me - subsequent events me being stabbed? The peripheral and proximal stimuli and criminal occupation still exists to this day with varying degrees to agitate and of these same motives.

Getting there by way of USC Medical Center, I was plied with psychiatric meds and at one time was taking 80mgs of Prozac;for which, losing discretion as it crept up on me, I smoked crack out of my corn-cob pipe, resulting in a drug dependency that lasted several months.

2014

Dating back to this interview prior to my second colon screening, this "alcohol on breath" issue =>

<https://gamifiablecom.files.wordpress.com/2019/10/1.png>

This has been explained regarding the context of exclusions, unprovoked attacks and particular with Santa Anita Park Race Track, so this time, I was tested =>

<https://gamifiablecom.files.wordpress.com/2019/10/2.png>

Preparing for a colon screen, upon entering that medical office facility at Cedars-Sinai Endoscopy at 8536 Wilshire Blvd, Suit 202 Beverly Hills Ca, 90211, David M. Padua MD was jovially masquerading such state with two other employees for my "benefit," then stepping quickly out of my sight to disseminate. This was the day of the initial interview.

Friday 11th

I followed-up one month later =>

<https://gamifiablecom.files.wordpress.com/2019/10/3.png>

On that Friday, staff and the nurse that took my breath test were not all there, stipulating, mimicking my personal data in my pipeline and on my website; after several attempts to get them to post my results, of those patterns to suggest and of its deliberate delay or impede, I participated in a convoluted narrative on the mycslink - conceptualized cognitive states were stated to establish rapport.

Meanness

However, their position was to escalate versus deescalate: combative in demeanor and in no way with an intent to provide the health care one can expect without a fight, flight or defensive indoctrination in loop, and this infiltrated scheduling, giving me a date on the day of Item D. This is the type of dialogue and charades I experienced with Getaround among many other things!

Talk to Me

David Y Kawasheri MD, my Primary since the fall of 2012, he demanded that we converse over the phone, and he informed me that David M Padua MD would not perform a scheduled, crucial, life-saving colon screening on me unless I have a Psychiatric Evaluation and must be approved first:

Denying me a medical procedure is unacceptable, and the utilization of emotional or psychiatric conditioning to excuse criminal infrastructure is not Internal Medicine and Primary Care. With data gathered five years ago, not advised nor a diagnosis plan presented to me, noncompliance internal, the doctor-patient relationship was criminally compromised, a violation of contemporary medical ethics.

Withholding of Test Results

The denial of services started in 2014 with a cancelation of an appointment, a recurring event and index of patterns now.

Item

=>

<https://gamifiablecom.files.wordpress.com/2019/10/capture-1.png>

Multiple times, I was never told I had blood clots after ultrasound and going months without diagnosis, never told I had imploded a genotype of Hep C while advising me not to get another biopsy, for if I had listened to them, I would be dying of liver failure now, and here, this interview =>

<https://gamifiablecom.files.wordpress.com/2019/10/capture.png>

There was no diagnosis, and like I explained, there was deliberate delay, impediment to get the recent test results on a treatment that went undiagnosed for five years, and in an online narrative to achieve productivity, an escalation of denial of a colon screening was implemented: biased, grievous of term with Human and Civil Rights violations that date to Item A =>

https://gamifiablecom.files.wordpress.com/2018/11/38430013_140879243489504_8325463120231268352_n.jpg

Again, this "breath" issue, an exclusion from my livelihood and placed on Disability in July 1989 because I am unemployable? I would hold multiple jobs before this saboteur, and the Psychiatric Doctor that put me on mental disability, sent there by social services, he had AA material on his desk. Going to his office one day to get documentation as to what may be my problem, he threatened to call the Police!

Friday, October 25th - 2019

Extensively working with probability, permutation, combination and game theory by way of the archetypes, I have stacked its probability in a pipeline at where there is a schizophrenia demarcation, so information transfer to me is at a priori and extracted, transformed and then the load of collective state.

I don't hear voices, I hear ETS: Extract, Transform and Load, so I was aware of the "taze him" statement that was part of the above explained at its motive this day. My work in this area is transparent at ecmccready.com

Accosted multiple times this day, this "run into me," I proceeded to the Alhambra Civic Library, and the guy in the blue hat deliberately did the "run into me."

Item =>

<https://gamifiablecom.files.wordpress.com/2019/10/blucong.jpg>

Event =>

<https://gamifiablecom.files.wordpress.com/2019/10/unnamed.jpg>

The patterns of congregate laughing was present as discussed on the day that I entered the building and the Dr in question regarding my colon screening and of which was denied, less I get a psychiatric evaluation? Also, Officer Todd was adamant and in the context of recent events out at Santa Anita Park Race Track and in my opinion was under the influence of meth.

Multiple Alhambra PD entered the Library, began questioning me, indexing my ID and holding my book bag out of reach as if it were a carrot on a stick and all the while querying for my ID in a futile attempt to find it - suggesting that I lunge or reach for it, and I did see an errant black book bag today, and this is in the pipeline with Arcadia Central Library and those drugs to high schools.

They said that I was a person, lodge of a complaint that was taking pictures and threatening to blow up stuff, a ridiculous lie - outright, no grey area and all data here:

Again, on a Friday, I am engaged by law enforcement from a public library, excluded by way of grievous unprovoked attacks and Human and Civil Rights Violations!
