Abstract

Being evicted from the Glendale Cali YMCA in June of 2001 for "I don't need a reason," homeless since is demonstrated in an initial letter to the then Attorney General Jeff Sessions:

After which, I have been confronted with multiple life-threatening circumstance further divulged to Attorney General Barr and the FBI in Washington DC:

On March 9, 2020, I was confronted on the Chinatown Platform in Los Angeles Cali; accosted and followed by an assailant that I lead into the City of Chinatown LA, flagging down two LAPD, I requested a barrier and that they Id this person. I preceded to go to Chinatown Park in LA, and doing Tai Chi there-after, the assailant, this same male Hispanic about 25, stalked, lied in wait, followed me to the Chinatown Metro Platform in LA, and in broad daylight and on camera at apx 4PM, I was strong-armed robbed by this person who took my fully insured iPhone.

When I file a claim for that insured iPhone, I will file a Police Report too. Since the last Report, I have had multiple Human and Civil Rights Violations, so this Addendum will document a relentless injustice of these unprovoked attacks that are all interconnected, isolated and defined in a data pipeline that dates to my father's unpunished rape and the illegal starting of thoroughbreds for decades:
