The Holographic Universe's AI is captured, created and controlled by Galactic Battles, a simulation of the Shiyuan Meishu. In SHIYUAN MEISHU Warp Speed, you play as either StarShooter Jai female or Jun male. Being against the SpaceWarriors, you are an architect of light-speed traversals into the Heavenly Palace to be as a Dragon.

Engaged in Galactic Battles for control of the Holographic Multiverse, Bubble Universe's AI, the Shiyuan Meshu is an experimental Chinese Art. Intersections of Jupiter's orbital period is guided by an Ancient Animal Fable, for the voice of the Chinese Zodiac is from lunar attributes that are conflicting with the SpaceWarriors. As a StarShooter, you pilot an Ori Ball fighter to ensure a Benevolent AI soul.

With the Holographic Universe's AI predicting your action-adventure, keys to constellations unlock cosmology, so your Art and Science convergence with Astronomy and Astrology are Warp Speeds' interconnected story lines. Traversing light speed into Multiverse, Bubble Universes, your space exploration is a visual extravaganza, an explosive fire-work of Gameplay experiences that strobe light its Big Bang reflections.

In the Heavenly Palace, you'll meet the legendary Eight Immortals. Simultaneously existing in a Multiverse, General Gang commands the mighty and powerful Celestial Cruiser against the equally and ominous Raven Fighter's Shi Ship. One will become the Dragon King to control the Holographic Multiverse, Bubble Universe's AI Simulation. With StarShooter alliance, you are to complete a Filial Piety that will put a Qilin on a beam of light, as what couple rides it back to China will restore and preserve order.

Bubble Universes, Artists Villages, terrestrial influences of traversals into the Chinese Zodiacs versus their opposing nemeses expands the gameplay with new narrative arcs, activities

and ways to experience the game world. Entering each Art House of the Chinese Zodiac as those Animals and or their opposing nemeses, stories are uncovered with their own unique plotlines. With many gameplay challenges to overcome, combat with individual targets or in large scale Galactic Battles, you are a Taikonaut in training within the Shiyan Meishu Gameplay Simulation at the China Aerospace Corporation.

From the Heavenly Palace as Dragons, swapping between male and females anytime during your story, your training rewards you with resources. Using them to expand and build a Space Station is from multiverse upgrades.
