Version 1

Video Game Pitch

StarShooters battle SpaceWarriors to embrace the God Particle's control of their Holographic, Multiverse Bubble Universes by an Autocratic Super Intelligence with their Hyperreal Story Machine, as the Holographic Universe's AI is captured, created and controlled by Galactic Battles, a simulation of the Systemic Shiyan Meishu, in SPACEZODIACS Shiyan Meishu, you play as either StarShooter Jia female or Jun male.

Engaged in Galactic Battles for control of the Holographic, Multiverse Bubble Universes' Autocratic Super Intelligence, the Shiyan Meishu is an experimental Chinese Art and Science convergence. Guided by an Ancient Animal Fable, you traverse Bubble Universes with Habitable Zones; seeding them with water as a Dragon King, they become green, as the voice of the Chinese Zodiac's lunar attributes conflict with the SpaceWarriors, a StarShooter wearing a Hyperreal Story Machine is a pilot of an Ori Ball who flies Space, Length, Width and Height to embrace the God Particle with their Ancient Animal Fable.

Your open world RPG action-adventure-fantasy unlocks cosmology, so your Art and Science convergence with Astronomy and Astrology is a new age of interconnected story lines, as a Taikonaut training with a Hyperreal Story Machine within a machine, you traverse light speed into Multiverse, Bubble Universes, for your Battleground is a visual extravaganza, an explosive fire-work of Gameplay Emergences that strobe light its Big Bang reflections! Building Bubble Universe Habitable Zones from Asteroids mined into carbon, you seed them with water, so they become green, and with the magic of the Qilin, your Space-colony eco-systems are your game's currency.

From Warp1, Warp2, Warp3 and Hyperspace, your Hyperrealities will be transcending human states to become endowed with divine and supernatural attributes or powers, as StarShooters battle the SpaceWarriors and traverse and convert into the Chinese Zodiacs, their opposing SpaceWarriors' Animal, Bug and Reptile Nemeses are replacing the Chinese Zodiacs with their own order, erasing the Chinese Lunar Calendar, so StarShooters must relive their futures and become endowed of the Dragon King!

Mining asteroids to carbon and seeding Bubble Universes with water so they become green Habitable Zone, you use the magic of the Qilin to generate Space Colony eco-systems. Buy, sell or trade within your Bubble Universe Habitable Zones with their Space Colony eco-systems that converge metaverse with multiverse, experimental art and science, simultaneously exists, for General Gang commands the mighty and powerful Celestial Cruiser against the equally and ominous Raven Fighter's Shi Ship; StarShooters choose an Ancient Animal Fable as their Super Intelligent AI that controls their Holographic, Multiverse Bubble Universe's Habitable Zones.

Bubble Universes, Artist Villages, terrestrial influences of traversals into the Chinese Zodiacs versus their opposing nemeses expands the gameplay with new narrative arcs, activities and ways to experience the game world. Entering each Art House of the Chinese Zodiac as those Animals, vying against their opposing Animal, Bug and Reptile Nemeses, stories are uncovered with their own unique plotlines. With many gameplay challenges to overcome, combat with individual targets or in large scale Galactic Battles, you are a Taikonaut in training with your Hyperreal Vision Machine in a Machine, a copy of a copy that is the Shiyan Meishu: Nine Bubble Universes that nest within them twelve Chinese Zodiac Art-houses.

Your Game Modes have Four Heads of the Kishotenketsu structure of Warp1, Warp2, Warp3, Hyperspace; converging with Miller's Pyramid Assessment, Eight Tails of a Gamified Monomyth, you are seamless with Nine Bubble Universes that nest Chinese Zodiac Art-houses within Warp Speed. Bubble Universes that nest the twelve Chinese Art Houses are sources that produce resources for your internal investment that do, shows how, knows how, knows!

With explorative innovation, action, adventure and fantasy, as a Taikonaut, Gang's Shiyan Meishu training defines your honor, glory and leadership choices by traversing dimensions of Eight Systemic playspace loops: Danshanzi 728 Arts District, Mine Asteroids, Celestial Cruiser, Dystopian China Aerospace, Hyperreality, Space Colony, Heavenly Palace, Hologram Tunnel, for StarShooters' warfare with the SpaceWarriors, Nine Bubble Universes nest twelve Arthouses, so your Character becomes as

one of a Chinese Zodiac Animal that is opposing the SpaceWarriors' twelve nemeses of Animals, Reptiles and Bugs.

To achieve control of the Holographic, Multiverse Bubble Universes' mass with an Ancient Animal Fable, your gameplay is on the edge of family entertainment, yet hand to hand combats, fire-fights between StarShooters with their Chi Stems spewing electromagnetic voltages versus the SpaceWarriors and their Shi Rifles blasting their laser's destructive charges, the back the front the front the back, Habitable Zones are the middle, for intersections of art and science is your Space Colony eco-systems while you portal for loot, gatcha and trade offs within the Eight placespaces.

You are a StarShooter aboard your User Board wrangling with SpaceWarriors on their Remote Trikes. StarShooters in their Ori Balls and with SpaceWarriors piloting their Trajectors, as a Taikonaut wearing your Hyperreal Story Machine, you evade and destroy Space Wasters. Steering through the fiery debris to capture or kill SpaceWarrior Trajectors, you unlock perks and special abilities that are hidden in each Arthouse. Tiers improve your power and effectiveness. Forging deeper into the mysteries of Shiyen Meishu you will be rewarded with Habitable Zone Space Colony eco-systems. Choose your gender from six different Taikonaut team-mate pairs. Swapping between male and females anytime during your story, your training rewards you with resources.

With the wide variety of intergalactic challenges, Wormholes and seamless with Art Houses as a Chinese Zodiac, escaping with Whiteholes to evade being sucked into the SpaceWarrior Blackholes, you build your own unique gameplay systems and perks. The Wu Zing Room is where Taikonauts face the Raven Fighter to gain powerful officer skills, or with Habitable Zones, you can build custom StarShooter Space Colony eco-Systems that you can share with your friends. Customize and improve your Celestial Cruiser mothership and its Ori Ball fighters. The Animal Room is where you will embroil yourself in the mysterious conflict of the Chinese Zodiac and its Calendar order of the ancients. With intersections of art and science, as a Taikonaut, your training involves extraordinary space exploration, innovation and research, yet the Holographic system introduces new enemy factions.

Shiyan Meishu is a space explorative Open World RPG action-adventure-fantasy! You will uncover deeper layers to your own Taikonaut's story. You and your team-mate will be set in dramatic and intimate narrative through lines, as Player choice is woven through every facet of the game experience, you'll continue to explore and uncover new stories, aha moments! In Shiyan Meishu endowed of Dragon Kings, StarShooters will interact with the Eight Immortals that are seamless of an Autocratic Super Intelligence with your eight placespaces, you will unlock your Dragon King senses with Art Houses aligned with you as a Taikonaut in training within a Hyperreal story Machine, for your Holographic, Multiverse Bubble Universes allow you to experience your own elemental Space Exploration's Autocratic Super Intelligence creation journey that embraces the God Particle to control all mass. With the thrill of discovery, glory of victory and traversals of light speed - Beyond here be Dragons!
